Instructions No. 2174

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 2 Hours

Sending **spring greetings** to a loved one or surprising them with one is not only a pleasure for the recipient, but also for you. The face when your recipient receives the card is also a **gift**.

This is how you design the cards:

If you want to use contrasting coloured **paper**, cut it out in the desired shape and size and stick it in the desired place. The best way to attach this is with **double-sided adhesive tape**. You can use, for example, frames, overlapping rectangles and much more.

It is best to decide first what you want to use on the card. Punch out the **die-cuts** and arrange the scatter pieces, papers, **feathers**, **stickers** etc. on the card.

Once you are happy with the result, stick the die-cuts, stickers, labels and whatever else you want to use. You can use double-sided adhesive tape for this or if you want to create a **3D effect**, use 3D adhesive pads.

Stamp the motifs you want and decorate your cards with **tags**, **ribbons** and other **accessories** that you have on hand or have found in nature.
