

Springtime house decoration

Instructions No. 2981

Difficulty: Beginner 🍷🍷🍷🍷

Working time: 3 Hours

Give your home a unique touch with the "Row of houses" wooden construction kit by personalising it with the branding pens.

First, the facades of the houses are painted with the colours mentioned above. Then the windows, doors, roofs and chimney can be glued on. To achieve a harmonious effect, we recommend painting the surface of the base antique white. The front of the birdhouse is an ideal surface for hand lettering. Use a branding iron to burn in your lettering as in our example.

Tip: If you are not experienced in hand lettering, you can also print out the desired saying and transfer it to the wood using blue paper. You can then burn the lettering onto the wood with the branding pen. This will give you a personalised and appealing lettering on the front of the birdhouse.
