

Smaller Organizer or loving Gift wrapping? Both!

And so it goes:

Prime the cap of the pencil box with Beige, let them dry. Meanwhile, cut the motifs out of the box Scrapbook block and cut them to the dimensions of the box. Also prime the floor of the box, but in the same colour Black. When the beige colour on the cap is dry, you can apply the black colour there as well

Additional tip: Use the masking tape to help. The colour finishes will be more precise and the colour will stay where it should.

Paint the tip of the pen and the sheets in Black.

Now fix the tape-Ribbon on the box, each rectangle of the box should be taped around. Now pull off the transfer strip of the double-sided tape and put the scrapbook sheet around the box

Then stick the labels and the decorative motifs onto the box.

You still only have to assemble the pen box and fill it with pens or little surprises. Shining eyes are guaranteed!

Must Have

Stitching box, paper mache
