

# Süße Holzspulen- Wichtel

Instructions No. 735

Your unique gnome made of wooden spools and Felt!

## Here's how it works:

Cut thin strips from the design Felt . Use fabric scissors for this, as they glide through the fabric more precisely and easily. Felt Now apply Jute yarn. hot glue to the Wooden ball middle of the bobbin and wrap the felt strips and this around the middle until Jute yarn it looks a bit bulbous. Fix the ends with hot glue and tie a felt strip over them for lamination. Now cut a triangle from this and Felt, form it into a pointed cap and glue the ends together. The opening of the cap should reach up to the middle of the cap, Wooden ball depending on the desired look of the little gnomes. Now you also glue the pointed cap on the ball and cover the transition this time with the felt cord in white

Now fix the wooden hemisphere as a nose on the gnome's head, draw the face of the gnome with a marker pen and tie the Jute yarn tip of the cap together with a piece. D

these gnomes can be redesigned again and again, - not in only the wintertime. Use your creativity!
