Tischlampe in pastellfarbenem Landhaus-Stil

Instructions No. 994

This beautiful, **romantic lamp is** covered with fabric and lace. The lush green creates a striking contrast to the rose motif from Straw silk paper. Decorate this table lamp with small details and make it your personal favourite.

It's that simple:

Coat the **Lampshade** with Handicraft glue and stick **on** the green **fabric.** Then cut off the excess material. Cut the desired designs from Straw silk paper and spray the bottom side with spray glue. This allows you the optimal positioning. Then fix the Straw silk paper with Napkin varnish.

Cut out curlicues from the **lace** . Paste the tape-Ribbon around the lower edge of the lampshade and attach the lace to it. On the upper edge of the lamp, use the tape-Ribbon to attach Lace-squiggles and a Satin ribbon. Make small loops from Satin ribbon and use them to decorate the lamp.

Must Have

VBS Lampbase "Cuboid"
