Tray with Décopatch in Pouring Design

Instructions No. 1654

Difficulty: Beginner

Working time: 45 Minutes

Create a fantastically beautiful tray that is practical at the same time in no time at all. Designed in the trendy Pouring design with décoptach papers, it is an eye-catcher. Who wouldn't like to have breakfast delivered to bed with this tray?

First you prime the **tray** with a **white Acrylic paint.** In our example we have used **VBS Chalky Color Antique White**. We painted the legs of the tray with **VBS Chalky Color Antique Grey**. With a **sponge** you can easily and evenly apply the primer. Let the paint dry well before you continue.

The next step is to design the tray surface and the border. Cut **out** décopatch papers and stick them onto the inside of the tray and the lower border using Paperpatch glue . For this purpose, spread the surfaces to be designed with

Paperpatch adhesive Place the papers on the paper and spread the glue on the papers once more. A soft brush is best suited for this . Let everything dry well.

And already you have a super beautiful and practical tray! Also great as a gift idea!

Must Have

VBS Wooden standing tray

Length: 53 cm
Depth: 33 cm
Width: 33 cm
Height: 25 cm
Material: Raw wood
