

Tray with flower arrangement

Instructions No. 2961

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 3 Hours

Create an inviting table decoration with various tea lights, flowers and a painted wooden flower in just a few simple steps. Let your creativity blossom and create unique accents for your home!

First paint the wooden flower with antique rose craft paint.

While the paint is drying on the wooden flower, you can add a special touch to the jars and bottles by either wrapping them with jute ribbon and craft glue or dabbing them with frost-effect paint.

If you want to decorate the frost effect paint on the tealight jars with straight edges, use masking tape. Simply peel it off after painting.

Interesting facts about frost effect paint

The frosty effect is created after drying, and if you bake the colour in the oven at 160°C for 30 minutes, the glass becomes hand washable.

Add some coloured sand to the vases (for a firmer stand). Trim the artificial flowers with the side cutter and

place them in the vases. Place tea lights in the tea light jars and arrange everything on a tray.

Finally, arrange some Iceland moss between the containers. This will create a harmonious overall impression
