Tray with tile mosaic

Instructions No. 1910

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Mosaic with a difference - in this decoration idea, tiles were designed in advance with porcelain paints and then crushed with a hammer. The pieces were then repositioned on a tray, so that the picture is again the same.

Download the **free motif template** and print it out. To ensure that the paint adheres well to the tiles, clean them beforehand with methylated spirits or cleaning solvent: this will make the surface free of dust and grease. Place the four **tiles** together to form a large square, position the template in the middle and transfer the motif using transfer paper**.** Trace the contours of the coffee cup with a **porcelain brush pen**. Then paint the remaining motif with the **liquid porcelain paint.** For the background, **apply** the paint with a brush. The paint must dry for at least 4 hours before it can be baked in the oven according to the manufacturer's instructions

The tiles are now laid with the painted side down and gradually crushed with a **hammer**. Put the pieces back in their original place immediately afterwards to make it easier to place them on the tray later

Fasten the fragments with **Handicraft glue** on the tray and apply **mosaic-Joint Filler** . For this purpose, mix the mixture with some water in advance and spread it with a soft brush. After a binding time of approx. 8-10 minutes, wipe the remaining mosaic off Joint Filler the tiles with a damp **sponge**.
