# Underwater world table runner

**Instructions No. 1978**

Difficulty: Beginner

Working time: 3 Hours

This year, decorations reminiscent of the depths of the sea are very popular. In this guide we show you how easy it is to transform a self-made table runner with sparkling sea animals into your personal underwater world.

Either take an **old table runner** that you would like to redesign or cut in **Fabric cut** with the dimensions 62 x **150 cm**. The **seam allowance** is 6 cm**, as** a sewing edge **of 5** cm is **created**.

**Sew the table runner: Once** you have cut the fabric, **fold** the seam allowance **1 cm**, then **fold** it again 5 cm. This edge is sewn with **any decorative stitch**

Now the **IZINK Diamond paint** is applied. To do this, place the **desired one on Stencil**the runner and **apply** the glitter paint with a brush. As soon as you are satisfied with your result and the paint is completely dry, the paint is ironed**.** **Important:** It Stencil should be cleaned under warm water immediately after use. When fixing, the painted surface should be covered with a cloth. Then you can wash the table runner at 30 degrees**.**
