Urban Jungle plant nursery

Instructions No. 2562

Difficulty: Beginner

Working time: 2 Hours

You want to grow new green plants from cuttings? Our plant growing station is practical and decorative at the same time! The pretty decorative bulbs can be screwed on and find a place as mini-vases on the wooden tray decorated with napkin technique. Everything is very quickly tinkered.

Design wooden tray

In our decoration idea, we decorated the inner tray bottom and the outer sides of the tray with napkin motifs. To make them look clear and colorful, first prime the base surfaces with white paint.

Cut the napkin to size and glue the top printed layer to the wooden surfaces with napkin varnish. This works best with the help of a brush. Remove any overhanging paper on the edge of the tray with a scalpel.

Decorate decorative light bulbs

Wrap strips of the light bulbs with jute tape. This can be held in place well with double-sided tape or a bit of craft glue.

Use bark slices as coasters and also use them to label your plant cuttings with a marker.

Place the bulbs on the tray: open bulbs filled with offshoots as well as more closed bulbs.

Must Have

VBS Decorative light bulbs, 12 pcs., screw-on

Fill volume: 50 ml
Content: 12 pieces
Diameter (outside): 4.5 cm
Height: 8 cm
Material: Metal, Clear glass

14,99 €
