Window Color Labels

Instructions No. 2413

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Window Color with a difference: create colourful labels in no time at all with the ever-popular Window Color paints. The decorative labels bring order and colour into your kitchen at the same time.

Create great colour effects:

1. Choose your favourite colours: we chose white, turquoise and glitter blue. Put a dab of each colour next to each other on the clear plastic and work them into each other with a bamboo skewer. Allow to dry through.

2. Once the paint has dried, the resulting labels can be removed from the foil and hand-lettered with markers as desired. The labels can now be applied to all smooth surfaces such as jars, storage jars, porcelain, etc.

The sugar in your storage jar is empty and you want to put coffee powder in it instead? No problem! The labels can be removed from the surface without leaving any residue. This makes room for a new coloured Window Colour label.

Tip: The homemade labels can be used in many different ways. How about, for example, as glass markers at a party or for labelling containers with craft materials or odds and ends on the desk. The labels can also be used to decorate jars of homemade jam or other treats from the kitchen.
