Winter scene with plug-in motifs

Instructions No. 2869

Difficulty: Beginner

Working time: 2 Hours

Still looking for a beautiful **winter decoration**? Here it is! The houses and fir trees are easy to put together and can then be glued and painted. With a little snow and natural materials , the tray is transformed into a fantastic decoration.

This is how you can design the tray:

Stick the **VBS wooden** "Christmas tree" **motifs** together and fix with **VBS handicraft glue** fix them in place. Once dry, glue onto the enclosed tree discs. The VBS Houses silhouettes are lightly primed with white **handicraft paint** primer. Then leave to dry. Tear out the **straw silk paper** tear out the desired motifs and stick them **napkin varnish** onto the houses.

Now you can start decorating. Place the houses and fir trees on the **tray**. Iceland moss, decorative-willow, cones and organic snow on the tray round off your winter decorations.
